

**\*A\* GAME HOOPS** and the **GUELPH PHOENIX** have created a system focused on the high level development of elite high school players while giving accomplished players a venue to continue playing at a very high level.

Our men's team selects the most promising junior players in the region. These junior players become team members. These young players are thrown into the fire and develop unique basketball experiences they could only get playing with extremely accomplished players in the \*A\* Game system.

We are very proud to be able to teach the game to these young kids the same way the European teams develop their juniors.
